IN consequence of ill-heatth, I have felt it my duty under the advice of my physician, to give up business entirely. I have rold out my stock of Books, Stationery, &c., to Honry Keurphahl, who has been with me during the past year, and for the four previous years with Messrs. D. Appleton & Co., of New York.

It is with no ordinary regret that I relibquish a pleasant and successful business, and close the connections which have existed between myself and my customers. In Mr. Kempshall, I am assured that my old friends and patrons will find a thorough butiness man, who will treat them courtecuty, deal annovably, keep a good stock, and sell at reasonable prices.

MILWAUKEE: Wednesday Morning, April 22.

Turning Over a New Leaf. The News of yesterday announces " the commencement of its second year," and improves the occasion to make a few "personal remarke." It proceeds, in the first place, to speak culogiatically of its business prospects and success; vauntingly of its political course and doctrines and defautly of its opponents and their " allies. It next pledges itself to sustain "regular nominations," at all bazards; though if it does so as coldly as it " sustained" some of these nominations at the recent Charter election, its help

will not go for much. It promises, in the third power in this State. Is indulges, fourthly, in a Governor acts. seeer at "the weaker members of the democratic party;" i. c., those who have just been pushed to the wall by Mr. BUCHANAN; and with an illconcealed air of triumph and a poorty affected show of magnanimity, bespeaks for these outcasts the "forbearance" of the victorious wing-In conclusion, it promises fealty to party measurement ures, policy and usages, and fair play for "every democrat.

One assertion contained in this introductory, calls for a brief notice. We quote:

calls for a brief notice, We quote:

It is now apparent to us that a thorough organization of the party in this State at the late election would have resulted in the complete triumph of the democracy. The falling off of Black Republican votes in the enemy's strong holds proves clearly that they are unable to maintain their ascendency in this state. They put in nomination their strongest man, and he has succeeded by a greatly reduced majority from that given last fall to Framour. This is a cool, but characteristic mis-statement,

and shows that the News, though turning over a new leaf, still clings to its old habits. There has been no where so great a falling off of Black Republican votes" as there was of Democratic votes in this city and county, and the majority for WHITON is not only much larger in proportion to the vote cast, than that given for Fremont, but in all probability, actually larger. We invite the News to compare the figures, and test by them the truth of the above assertion.

Heavy Fallure.

We copy elsewhere, from the Chicago Tribens of yesterday, a brief paragraph announcing the failure of an English Banking House, and a rumored heavy loss to the Chicago, St. Paul and Fond du Lac R. R. Company. Mr. Ognas, the President of the Road, has, it is said, sailed for Europe to save what he can from the wreck. We hope that the Company will not fare as badly as seems to be feared. The details of the news will be looked for with interest. We are somewhat curious to learn whether Mr. ROBERT J. WALKER is mixed up with the affair.

Colonization of Missouri. Our readers will remember that a few days since a correspondent colled their attention to the enterprise of Mr. FREDERICE MUZNOH, in establishing a German University in St. Louis. This gentleman (Me Mucach) has published, in the Davenport (form) Democrat, an appeal to the Germans who are pushing for the West, in which he counsels than to emigrate to Missouri, particularly to the northern counties. Here are large tracts of fertile and healthy land to be had for half or a third of the price which must be paid for lands in some parts of Iowa or Wisconsin. The climate is very inuch milder than in Minnesota. The slaveholders are moving off wherever the Germans penetrate, and there are now altogether but about twenty thus sand slaveholders in the State, who can be grad ually bought out, in order to migrate southward with their slaves.

The coming in of free-laborers will soon free Missouri from the curse of Slavery. The Tree Labor Victory in St. Let

Mayor Winer, elected by the freemen of fit. Louis to preside over the affairs of that city made an able speech in assuming the duties, of County Judge by 372 majority. his position. Among other things, he said : " his position. Among other things, he said: "
The resolutions recently introduced into the Missouri Legislature were intended to bind our State and city in all future time to a system of labor unsuited to our condition, lowering by its competition the labor of freemen of our own race, and tending to drive from as the entigration from Europe and the older States.

The people of St. Louis have, by their late action, rebuked the authors of these resolves.—They have calcily and feerlessly taken their stand. They have decided in favor of the many, against the few. This declaration, I am satisfied, will never be reversed. There are none now who openly assail it. It is believed that no men or combination of men can prevent its becoming the policy of our people.

ing the policy of our people Meantime, while our St. Louis friends are re-

fire-eaters are muttering dreadfully at the result lat Ward of the election. The new paper at Richmond, the "South," established to represent more exclusively the slave system, says:

clusively the slave system, says:

From the adverse vote of the Legislature, the natislavery party in Missouri have taken an appeal to the people. In the recent municipal election in St. Louis emancipation was the issue which determined the contest, and the result is the success of the anti-slavery party by a plurality vote of flitten hundred!

Now, some stupid individual will say, "all this means nothing. It is a joke, a hoar," this aboution triumph in the capital of a first-class slave State. There may be certain people in the South to whom so significant an event is a matter of no interest or concern—an amusing little incident over which they can enjoy a quiet chuckle. It is not so regarded among the aboutionists of the North.

North.

Equal importance will be attached to this auti-Equal importance will be attached to this publishavery triumph by all reflecting men in the South. They see how it will strengthen the hands of the free soil party in Kaneas; and what a prodigious impulse it will impart to the aggressive movements of the abolithenists of the North. It is a victory without parallel for them—it is a deployable defeat for us. Heretofore abolitionism has been content to restrict the expansion of slavery, and the South has had to lament only some negative repulse. This is the first instance ism has been content to translate the limit only some negative repulso. This is the first instance in which abolitionism has achieved an incontextible triumph on a distinct issue in the heart of a literature. This is the first time slavery has been reuted in one of its strongholds. Think you so extraordinary an event will be wished consequence? Is it nothing for the abolitionists to discover that they can invade the soil of a Southern State with impunity, and may even recken upon the succor of Scuttern people? Is it nothing for Black Republicanism to plant its banner on one of our own citadels? Is it nothing for slavery to lose the spell of invincibility, and the South to be bearded and builted on Southern soil? Is there no signification in this indication of an ebbing tide—the first backward step in the march of Southern power? indication of an ebbing tide—the first step in the march of Southern power?

The Stampede from Virginia. In the annexed brief paragraph the Charleston (Virginia) Republican states a very grave fac

and asks a very pregnant question : And aaks a very pregnant question:

Emigration.—Every steamboat that goes cut of the Kanawha River, Virginia, takes a number of our citizens not only from that, but from the adjacent counties, who intend seeking homes in the distant "Far West;" and the prospect is that the tide of emigration will continue for some time yet. Can nothing be done to check it?

RUMORED INDIAN RISING EXCITEMENT AT ST. PAUL.

3 33 43 B. 18 24 16

The people of St. Paul, Minnesota, were thrown into a state of the wildest excitement and slarm, on Monday of last week, April 18, by the report that the Sioux Indians had risen and were murdering the white settlers, at all exposed points, pillaging and burning dwellings, and moving down, in force, upon Markato. The news came by private messengers from St. Peters ; one of whom brought the following let-

place, to expose "the folly, extravagance and and has sent the express that takes this, to the corruption of the black Repuplicans," now in fort and acting Governor. See that the acting

Indian affairs, who is now in our city, warrants the bolief that the St. Paul and St. Peters people were deceived by false reports. The Doctor agrees in the conclusions of Col. SMITH and the writer, and telegraphed to Washington, last evening, that the prompt payment of the money and rations due the Indians would doubtless restore quiet and satisfy all parties.

Nonthean Superintendency, St. Paul, April 14, 1857. SIR :- At a meeting of the citizens of St. Faul this morning, the usual Committees were appointed, and measures taken to arm and send up a body of men to protect Mankato and other exposed settlements. Col. SMITH, commanding t Fort Snelling, sent a detachment this morning, of one hundred troops, all well armed and provisioned.

Other messengers have come in during th day, who report that the matter is not so alarming as it appeared at first. Col. Smith has informed the Committee who were sent to offer him the services of men from this place, that the troops he haseent are far more than sufficient to restore quiet. The excitement in this city has calmed down entirely, and every one is laughing at the fright caused by the first report. Col. SMITH thinks that these murders, &c., are he same as those that occurred near Spirit

Lake, lows, not long since. Many in St. Paul now think the same, Respectfully, Yours, &c., J. J. McCULLOUGH. FRANCIS HUERSCHMANS, Esq., Superintendent

It is the more gratifying when it is recollected that Leavenworth, during the Kanses troubles of last fall, was the head quarters of Capt. This victory was won, too, under election laws which prohibited the ballots of all citizens who had not resided in the city for a period of six months prior to the day ballets of all crizers who can not residen in the city for a period of six months prior to the day of voting. Hon C. C. Washburn, the able represent tative in Congress from this district, passed up the river last week. He looks well and hearty. The people of his district almost unanimously meet him with a warm grasp of the hand, on his return from his duties at Washington, where he has been faithfully attending to the interests of his constituents. No man in Congress better deserves the applause of his constituents than Mr. C. C. Washburn.—La Grosse Republican.

An anonymous correspondent wishes to know why Madison is not "graced by a resident military company." If we are not mistaken, there is a military company here, formed and furnished with arms, a little over a year since, by the usurper Barstow, for the purpose of siding him in resisting the judgment of the Supreme Court. We do not know, however, that the rown is particularly "graced" by them

JOHN HARCOCK.—It is quite a singular fact that Hancock was not originally elected as a delegate to the Contineatal Congress at Philadelphila. Dr. Baird's Lecture on Hussia.

The locture by Rev. Dr. Baird last evening—the first of his regular course—was full of interesting facts, told in a plain but impressive manner. The Dr. is a walking, talking Gazzteer and Encyclopeedis, and careful attention to his jectures will furnish information more and better than is often obtained from a year's stilly of books. His subject last evening was Russia—that great empire whose extent is said to equal one-seventh of the land sur-face of the globe, having a population of some 70,000,000.

The general geographical features of this country—its ag-riculture and manufactures, its trade and commerce—the matters in which it is like, and those in which it is unlike our country—its Asiatic characteristics—were briefly sketched and well flustrated.

The chief cities were noticed, and Moscow and St. Petersburg shown to the audience by excellent maps.

The government and the importal family—the Educa-tional catablishments—the laws and punishments—the system of serfdom—the religious establishment, and the great Milliary Schools, were sketched rapidly, the lecturer having a happy faculty of selsing upon the satient points of his subject, and impressing them upon his hearers. The second lecture of the course will be delivered on Taurainy (to-morrow) evening, on the subject of Thir key and Greece. Dr. Baind possesses a better knowledge of Europe, probably, than any American living, and our citisans should not lose the chance of learning from him. An Elegant Establishment.

SETS. HASSETT & CHAPMEN, late of Boston, have open ed, within a few days past, at No. 185 East Water St., on of the handsomest Dry Goods Stores to be found, East or West. These gentlemen have long been connected with the house of C. F. Hovey & Co., Boston, which is second to none in the country; and they have come to Milwan-kee to introduce here the system which they have found so succestful in the American Athens. Their stars is roomy and well lighted; fitted up with great neatness and in unexceptionable tosts; provided with intelligent and attentive clerks; and furnished forth with a most attractlwe stock of Dry Goods. We have neither space nor time to recapitulate the half of what they offer for sale. But whether our fair readers are in search of the costlicat silks, or the plainest calicoes; of the finest French, or the stoutest American (abries; of premium Bay State Shawls, or the lighter textures of foreign looms; of linens, cottons, sheetings and what not—they cannot go amiss at Hasser & Charman's. Every priicio has its cost marked on it in plain figures and no deviation is allowed from the first price; while the butiness of the clerks is to show goods to all comers, but to arge them upon none. Strangers, therefore, visiting our city, as well as residents, can make sure of finding at Hassery & Chapman's, goods of the first quality, plainly marked at the selling price; civil and obliging clerks; and entirely reliable representalions. Such an establishment, so furnished and managed cannot fall of success, and it is already a favorite res

Arona has left the stand in the Post Office lobby which he has occupied for some time for the sale of papers and popular publications, and now occupies with his whole stock his store opposite the Walker House. Angas commenced with a little news depot only a couple of years since, and by persevering industry and wide awake enterprise, has already built up a pretty large business which is at it increasing rapidly.
